

ALARM RESPONSE AND REACTION

REVISED 2025-01-27

This document serves as a registration document for rendering private armed response services to an owner/resident within the Wilds and is to assist in access when responding to a callout by keeping a record of service providers.

It is specifically noted that The Wilds Homeowners Association is not liable in any form or manner for the services rendered for any action or incident to which the service provider responds. The agreement is between the property owner/resident and the service provider.

It is further noted that the Contracted Security Services of The Wilds Estate is not permitted to render alarm or response services to individual owners or residents under this service unless the service is a separate entity or division.
